OVERLOOK
GARDENS

HEALTHY PLANTS

You run no risk of buying unhealthy stock of us. Our plants are all tested by state inspectors each year as the following certificate shows:

No. 3329

STATE OF NEW YORK
DEPARTMENT OF AGRICULTURE AND
MARKETS

C. H. Baldwin, Commissioner

Certificate of Inspection of Nursery Stock

This is to certify that the nursery stock of Overlook Gardens of Central Bridge, County of Schoharie, State of New York, has been duly examined in compliance with the Agriculture and Markets Law and has been found to be apparently free from all injurious insects and plant diseases. This certificate is valid until September 1, 1935,

Dated, Albany, N. Y. September 1, 1934.

C. H. BALDWIN,

Commissioner

OVERLOOK GARDENS

CHAS. ZICHA, Prop.

CENTRAL BRIDGE, N. Y.

PHONE 10-J-12

SPRING 1935

Dear Patron:

This catalog is our personal message to you. All our time, skill and labor during the past season has been expended in producing the plants listed herein.

To you past customers who know the dependable quality of our offerings, we say that we are ever striving to better our high standard of excellence.

To you new customers, all that we can say is — give us a trial — the low prices of our stock are surely no reflection of poor quality as all who have patronized us can testify. "Ask your neighbor."

To you connoisseurs of plant novelties we offer the Cream of the New — all tested by us before offered for sale. We have many rare items in quantities too small to offer here. Let us tell you about them.

NOTICE

As a special inducement to our many customers who cannot come after their plants we will ship any order for Perennials amounting to \$2.00 or more Parcel Post or Express Prepaid.

This offer is good only to June 1st.

We do not pay postage on other stock and require 10% extra to cover cost of shipping or we can send by Express Collect.

New & Scarce Perennials

15c each - \$1.50 per doz.

Except those marked otherwise.

ARABIS, ROSABELLA and VARIEGATED

These two new varieties are destined to great popularity. Rosabella is the only Arabis with pink flowers and the other is in our estimation the prettiest variegated foliage plant for the rockery. 25c each.

ACHILLEA SERICEA

A new Achillea with dusty foliage and bright yellow flowers, grows about 20 inches high. Should be in every rock garden.

DIANTHUS BEATRIX

This new novelty is one of the best perennials that we have ever listed. Clear pink, carnation like flowers borne in great profusion all season on 1 foot stems. We cannot recommend this plant too highly.

CHRYSANTHEMUMS

PINK CUSHION and AZALEAMUM

These two varieties are almost alike in color and habit. We consider them the best low growing perennials for fall blooming. Clear pink flowers cover the entire plant for a long period late in the season when other blooms are scarce.

CHRYSANTHEMUM ALADDIN

A Chrysanthemum that should be in every garden. The large clear bronze flowers are borne on long stems from July till frost. 20c each.

VIOLA PURPLE GLORY

Considered the greatest improvement in Violas since Jersey Gem was introduced. The flowers are a very fine shade of purple, much larger and with longer stems than Jersey Gem.

Perennial Plants

Our plants are strong, healthy and well rooted. They are fresh dug from the field the day your order is being filled. Every shipment of plants from our Nurseries carries a State Inspection Certificate.

\$1.00 per doz. of one variety, 10c each, except those otherwise designated.

ACHILLEA—PERRY'S WHITE, double white

***MILLEFOLIUM ROSEUM**, rosy pink

***TOMENTOSA**, dwarf yellow flowers

FERTILIZER

Overlook Gardens rotted cow manure is becoming very popular with many gardeners and is the only preparation used to enrich their flower beds and lawn.

For Perennials it is especially beneficial because it does not leach away with the first rain as is the case with many commercial manures.

This is the only fertilizer we use in our own gardens and recommend it to our patrons for all perennials, lawns, and shrubs. Many people have used this during the last few years with excellent results.

This manure is much better than commercial fertilizer and absolutely safe to use on the tenderest plants.

If you have trouble with your lawn try an application of this fertilizer for quick and lasting results and a permanent sod.

ROTTED COW MANURE

Dry, pulverized, well rotted and absolutely without odor. per bu. (about 50 lb.) 50c.

Ask for special prices on large amounts..

AQUATICS

Water gardening is becoming very popular lately because of the great enjoyment that can be derived with so little care and expense.

Of course, with large and elaborate pools magnificent effects can be created; but a small tub sunk into the ground will give as large flowers and as much satisfaction.

A few goldfish and scavengers should always be used to keep the water clean, they also give much pleasure.

Often a young waterlily will have as many as 50 blooms during the season when planted in a small tub.

A sunny location is best for your pool if you want lots of flowers.

The following varieties are good standard sorts and very free bloomers.

CHROMATELLA —the best yellow lily	\$1.00
MARLIAC ALBIDA —a very fragrant white	\$1.00
MARLIAC PINK —a free blooming shell pink	\$1.00
ROSE AREY —a wonderful cerise pink lily	\$1.25
WATER HYACINTH —a floating plant having blue flowers similar to hyacinths each	25c

We also have all kinds of Gold Fish and Scavengers for cleaning the water and marsh plants for planting around pools.

LANDSCAPING

If you want a pool made, or evergreen and shrub planting, your lawn fixed or a rockery built, it will pay you to get our estimate on your needs. We can do as good work as any expert at a much lower figure.
